He declared he was never returning to St. Petersburg and said he is through with the practice of law.

Meanwhile law enforcement agencies, aided by special investigators, were seeking some meager clue on which to work. The kidnapers of the lawyer are still at large, since he has refused to reveal their identities.

Newspapermen and police officers visited a desolate spot north of New Port Richey today and tonight were convinced that they had located the vicinity in which the Sunday assault took place. The exact spot, where Bickers said he left a mass of bandages and ropes including one with which the gang first started to hang him, has not been found.

An old man, a resident of the vicinity for some time, told newspapermen today that he had observed a big car filled with men entering a lonely road Sunday afternoon about 2:30 o'clock. It came back a few minutes later, he declared. He was informed today that Bickers had been beaten and he is the first work.

Problem Faces Hoover

As a result. President Hoover is confronted with a ticklish problem which he must settle one way or another. Regardless of which way he decides it seems certain that strained relations will follow.

The presence of Mr. Wright with the group developed something of a surprise. It had not been known here generally, if at all, that he was taking sides in the Georgia controversy. The fact that he came along, together with Mr. Lucas, indicates the Mann committee will have the active backing of the independent democratic forces supporting the the Mann committee will have the active backing of the independent democratic forces supporting the Hoover-Curtis ticket in the last national election. His support is expected to add considerable strength to the demands of Mr. Hastings and the others that the original patronage body stand without interference.

While no one for the moment seems willing to venture an opinion as to what the outcome of the present row may be, it may be significant that the announced plans for revising other southern committees have not materialized yet. Postmaster General Brown, James Francis Burke, counsel for the republican national committee, and Walter Newton, secretary to the president, said to form an unofficial committee named by Mr. Hoover to go into the southern situation, permitted word to go out in the beginning that all of the so-called Mann committees would go by the discard.

The Florida committee was included in the lot and at least one member of the Brown-Burke-Newton member of the Brown-Burke-Newton

The Florida committee was included in the lot and at least one member of the Brown-Burke-Newton triumvirate is known to have promised its complete substitution. Now it develops that Iew, if any changes will be made.

Compromise Suggested.

Something suggestive of compromise is seen in the personnel of the new Brown committee in Georgia, which includes four members of the original Mann body. Also it is known that a number of declinations, Mr. Hastings not excepted, were received before its present formation.

All of this may possibly lead back to statements made in informed circles here immediately after the

officiate and interment will be in Hollywood cemetery.

Brown-Mann squabble came into the open. That was that Mr. Brown and this associates may have acted without fully consulting the president on the part he played in selecting the original committees. If it should develop that this is the case someone may be slated for a fine panning for such an embarrassing situation. It would also mean that a lot of Georgia republicans whom the Mann followers chose to call trouble-makers are destined to be ousted from the picture for the next four years.

Possible future location of the new \$2,100,000 postoffice and federal building to be erected in Atlanta are shown in this map. Designated above, in the outline map of the city's railroad and business center, are the sites involved in 20 bids recently submitted to the postal authorities at Washington. In the bids, denoted above by the numbers 4, 5, 6 and 7, four individual offers were made permitting the government to purchase various portions or all of the block. A similar arrangement was provided in the bids numbered 15, 16, 17, 18 and 19; in the series of bids 9, 10 and 11, and in the series 1 and 2. In the case of bid number 3, a site measuring 250 by 400 feet, to be selected at any place in the larger portion designated above, was stipulated in the terms offered. The Terminal station and present Union station, as well as the proposed new railroad station, are outlined in the map, as are the main postoffice facilities as well as the proposed new railroad station, are outlined in the map, as are the main postoffice facilities now maintained by the government.

# Britain - America Take Next Step In Cut in Navies

Geneva, April 30 .- (AP) - Washington and not Geneva will decide the next concrete step in reduction of naval armaments if the prevailing impression here is in accord with facts. The White House, the Washington state department and Downing street are believed to be agreed that a preliminary agreement between the United States and Great Britain on general lines is wise before there are further public naval discussions at the preliminary disarmament conference here.

Failure of the tripartite naval pact sult of lack of suitable preparations. Conversations Seen.

Geneva, therefore is guessing that Sir Esme Howard, British ambassa dor at Washington, is talking or will talk with Secretary of State Stimson, and perhaps with President Hoover directly, about the political aspect of the Anglo-American naval problem.

One or more of the delegations would like all the naval experts to get together for an examination of the American proposal for tackling the naval problem through guesses of equivalent tonnage. Perhaps even such conversations will be adojurned until the viewpoints of London and Washington have been brought together close enough to eliminate all
probability of a misunderstanding.

It is believed that if Great Britain
and the United States are in substantial accord on naval matters, the delegations can go forward more confidently.

Bar Navy Cut Discussion. Present opinion is to the effect that naval reductions will not be discussed until the next session of the preparatory commission, which the majority of delegates hope will not be convoked

of delegates hope will not be convoked until autumn.

This would give an opportunity to all the nations with big navies to scrutinize and weigh the American suggestions. Tokyo will want time to study them at leisure, and France and Italy must think of equivalent values of tonnage not only in relation to each other, but also with reference to their neighbor, Spain.

The smaller countries with modest fleets are beginning to wonder when they will be invited to climb aboard the band-wagon of naval reductions and naval formulas.

Jugo-Slavia, for instance, is showing a lively interest in whether the American principles also would apply to her naval forces.

Report of Committee.

The report of the committee on emergency revenue is as follows:

"Mr. Chairman and Gentlemen:

"Your committee has had under consideration the subject especially assigned to us, 'Emergency Revenue,' and desire to report as follows:

"We find from examination of the records the following status—at the time of our inquiry:

"Your committee has discussed and considered numerous possible sources of 'emergency revenue,' after having reached the conclusion that this com-mittee will make only such recom-mendations as are calculated, if adopt-ed, to raise merely sufficient funds to meets the emergency. The views and suggestions of the committee, there-fore, are not submitted as a permanent cure for existing conditions, but rather as suggestions for 'emergency revenue' to cover only the period of stress. It is the sense of this com-mittee that it should not attempt to draft bills to be submitted to the general assembly, but to confine its function to bringing to the attention of the general assembly such facts as we have gathered, and to make such recommendations as may be helpful and informative to the general assem-

"Respectfully submitted,
"J. W. CULPEPPER, Chairman, "GEORGE L. GOODE "LOUIE P. MARQUARDT." Sub-Committee's Report.

The sub-committee on administra ion reported as follows: "The strength, fairness and effi-ciency of any system of taxation is dependent upon the kind of administration given to such system. In recommending to the governor and the general assembly changes in the tax system of Georgia which will "more fairly and equitably distribute the tax burden, reach such classes of property as now fail to bear a just proportion of the tax load and make for greater efficiency and economy in the revenues of the state," we are convinced that no changes which we may recommend would or could materially improve the present system without a complete reorganization, co-ordina-tion and consolidation of the various units of our tax administration ma-

chinery. Without a strongly central-ized and efficient administrative ma-

"The second major division of our tax administration machinery is lodg-ed in the office of the state tax commissioner, which office has charge of the machinery for collecting the in-

heritance tax.
"The third major division is lodged in the office of the comptroller gen-eral. This is by far the largest single unit of our tax administration ma-chinery. Under the law the comptroller general has supervision over the tax receivers and tax collectors of Georgia in the matter of the col-lection of the state ad valorem taxes and the collection of certain business license taxes. He has charge of the collection of taxes levied against in-surance companies; the assessment surance companies; the assessment and collection of taxes against the public utility corporations; and the general assembly in 1927 placed upon the comptroller general the duty of collecting the petroleum product tax, which is the second largest source of revenue which the state has.

Commissioner of Revenue. "The fourth major division is lodged in the office of the commissioner of revenue. The collection of the cigar and cigarette taxes and special occu-pational taxes is the main function of this office. In addition this office is charged with the duty of collecting

and inadequacy of our tax administration machinery we cite the following: "The fixed license fees are collected

by the local tax collectors, remitted by them to the comptroller general, by them to the comptroller general, by the comptroller general to the state treasurer. The delinquents then come under the jurisdiction of the commis sioner of revenue.

"The comptroller general for many "The comptroller general for many years has been charged with the duty of assessing and collecting taxes against the public utility corporations. The corporations have had the most skilled engineers and experts that money can secure. The comptroller general has never had an engineer whose services he could avail himself of in checking up the return of the public service corporations. The comptroller general has for many years troller general has for many years tax collectors of the several counties He has not now and has never had the services of an auditor to check up the tax collectors of the counties upon fi fas and taxes which were re taxes that have been lost to the state of Georgia in this way would in our opinion run into large figures.

Smaller Tobacco Tax. "It is a source of surprise to many people in Georgia that the cigar and cigarette tax yielded less revenue in 1928 than in prior years. This, in spite of the well known fact that there has been an enormous increase in the sale and consumption of these products. This law is being flagrant v evaded, and in many places ignored This is due largely to the inadequacy of the enforcement machinery provided by law for the commissioner

"In the year 1928 the state tax commissioner collected \$600,000 as the state's 80 per cent of the federal estate tax, also known as the inheritance tax. This is twice as much as Georgia has ever received from inheritance tax. This is true in spite of the fact that the federal exemption is \$100,000.00, whereas in prior years the Georgia exemption was \$5,000.00. The only reason for this tremendous increase is that the administrative machinery for collecting the federal tax is adequate. Georgia avails herself of this efficient machinery and more than doubles her revenue from this source in spite of the exemption of \$100,000.00.

Uniform Administration.

"We are convinced that the first nd most important step in creating fair, equitable and efficient system of taxation in Georgia is the co-ordi-nation and consolidation of the various bureaus, departments, and agencies, each of which now has a part in assessing or collecting taxes for the state. We firmly believe that a state. We firmly believe that a thorough going re-organization and consolidation of the various tax collecting agencies and departments into one department; efficiently organized and adequately manned will result in bringing into the treasury of Georgia, from the present sources of revenue, not less than \$1,000,000.00 a year in addition to the present revenue. We believe this additional revenue will be net—that is over and above the cost of operating the new tax administration machinery.

"After a thorough study of the experiences of the other states in their efforts to secure fair and efficient administration of their tax laws we are convinced that the best solution of this difficult and vitally important

administration of their tax laws we are convinced that the best solution of this difficult and vitally important problem is to be found in the creation of the state tax commission. More than half of the states have finally adopted this plan. Practically every year finds additional states adopting this as the best solution of the tax administration problem. The special tax commissions of 1899, 1919 and 1925 appointed to study the tax problems of Georgia reached this same conclusion and recommended to the general assembly the creation of a state tax commission.

"The fair, equitable and efficient administration of the tax laws of Georgia is of vital importance to every business and industry, whether large or small. We believe the fair, equitable and efficient administration of our tax laws is a work that should command the full time of a commission composed of three members. We believe these members should be selected for their character, fairness and ability. We believe that they should be adequately paid so that men of the type desired for these important places can afford to serve.

"The experience of other states con-

that men of the type desired to serve.

"The experience of other states convinces us that the best results can only be reached by such commission having all of its members give their entire time to the work. Several of the states have tried the experiment of designating other state officials as ex-officio members of the tax commission. In most cases this has proven unsatisfactory. However, in view of the long experience in tax matters, covering a period of 50 years, of our present comptroller-general, we feel that such tax commission should by all means have the benefit of his accumulated wisdom and experience, and we recommend that the comptroller general be made ex-officio chairman of such tax commission.

Removal From Politics.

"We believe the members of such commission should be appointed by the governor, with the approval of the scales. We believe that such

chinery no real progress toward a real reform of the system of taxation can ever be made.

Present System Pictures.

We now have in Georgia four separate shift distinct major administrative divisions of our tax system. One of the largest sources of revenue is the motor vehicle license tax. The administration of this tax, with all of the real commissioner of motor vehicles. It is a rather anomalous situation that the secretary of state, who is ex-officic commending the transfer to the secretary of state, who is ex-official commendation to the secretary of state, who is ex-official commendation that the secretary of state, who is ex-official commendation that the secretary of state, who is ex-official commendation that the secretary of state, who is ex-official commendation that the secretary of state who is ex-official commendation that the secretary of state who is ex-official commendation that the secretary of state accommissioner of motor vehicles. Mayor John B. Everett and the local

issued a statement today declaring

that reports concerning the house ap-propriation of two million dollars for relief work were misleading and that donations were needed for the area.

The statement said:
"Dispatches carried in yesterday's papers, regarding government appropriation for south Georgia storm sufferers are misleading, in that the amount voted by congress is only intended to be loaned to the storm sufferers on first mortgages and not donated. That Sargon should restore me so quickly and so completely after all

That Sargon should restore me so quickly and so completely after all faces years of suffering and failure is marvelous and I want my friends everywhere to know about this wonderful medicine.

"Even the lightest meals would cause me to suffer tortures from indigestion, gas pains, and smothering spells. Sometimes I would just have to gasp for breath. Nervousness made my nights almost sleepless. Rheumatism troubled me a great deal, too, and my liver was so badly out of order I had to take strong purgatives continually.

"I took treatments everywhere"

account of mortgages previously given, and many of them are tenant farmers who have nothing to mortgage. While the government aid in the form of loans is deeply appreciated, we do not want any who may be minded to make donations to be deterred from doing so under the impression that the government is taking care of the situation. What the storm sufferers need is donations and not loans, and the need is most urgent. Hundreds have been rendered homeless and their homes must be rebuilt. The Red Cross is in charge of the relief work and donations should be made through that channels.

order I had to take strong purgatives continually.

"I took treatments everywhere without relief, and finally made up my mind to travel with the seasons and live the rest of my days as comfortably as possible. Had anyone told me that any medicine would do what Sargon has done for me I could not have believed them. It put my stomach in perfect condition and drove the rheumatism right out of my system. I eat anything, am no longer nervous, and sleep like a healthy child, I feel strong and well all the time. Sargon Soft Mass Pills completely overcame my liver troubles.

child. I feel strong and well all the time. Sargon Soft Mass Pills completely overcame my liver troubles. They act gently yet thoroughly. "To enjoy such splendid health as Sargon has giren me is the greatest blessing in the world, and I feel it my duty to let other sufferers know about this wonderful treatment."

This remarkable statement was made recently by Mrs. M. M. Link, wealthy resident of 863 Tuxedo Blyd., Webster Grove, Mo. Mrs. Link is spending the vinter at Grande Court, San Antonio, where she went in her long search for health.

Sargon continues its remarkable record of success everywhere it is introduced. Men and women of all ages and in all walks of life afflicted with stomach, liver and blood disorders, many of them cases of long standing, as well as thousands of weak, thin, nervous men and women, some apparently on the verge of collapse, have testified that they have been fully restored to their normal weight, health and strength by its use. Hundreds of Atlanta people are daily consulting the special Sargon representative at Jacobs' Main Store, 6 and 8 Marietta St., where he is reciting the astonishing facts about this revolutionary new medicine. Sargon may be obtained at all Jacobs' Drug Stores.—(adv.) While the resolution has already been approved by the house the final concurrence of the senate is necessary before the funds can be used. Senator Walter F. George, of Georgia, has a similar measure pending on which action is expected to be forthcoming this week. The senate appropriations committee met to consider the matter today but postponed a report at the request of senators from other southeastern states who expressed a desire quest of senators from other southeastern states who expressed a desire
to have farmers of their sections given
the benefit of the legislation.
"Apparently there is the impression in some circles that the appropriation to be used as donations for the
suffering people in the territory devastated by tornado," said Representative
Larsen. "This, however, is not the
case. The appropriation is to be used
for loans to the farmers for replanting their crops—the purchase of seed,
feed, fertilizer, etc., and does not include food, clothing, repairs, building,
trust funds for widows and orphans.
Red Cross authorities are conducting
a campaign at this time to raise funds

Only one week of "Learn-the-Difference" Month - and already new waves of Chrysler enthusiasm all over the country!

People are talking Chrysler as they never have talked before. This difference! That difference! A new surprise here, a new thrill there.

But we want you to do more than merely hear this difference in words. We want you to see and feel and experience it-in facts, in results!

Visit any Chrysler dealer's showroom -let us point out Chrysler's exclusive features - explain its advanced design - demonstrate Chrysler's unmatched performance.

Chrysler is not only different in the big obvious things. It is different in the little things that mean so much in the pleasure and convenience of driving.

In design and construction-Chrysler is far and away the leader-as unlike any other car as day and night.

You have heard of the "Silver-Dome" engine. But do you know the difference between this and other enAny Chrysler Dealer

The motoring world is singing the praises of the 7-bearing crankshaft. But do you know that Chrysler not only has a 7-bearing crankshaftwhich is a vital difference from

many other cars—it has a special Chrysler-designed counterweighted 7-bearing crankshaft?

See what it does for extra smoothness, extra evenness and extra quiet.

Chrysler has gone farther—much farther—than most other cars in the generous use of rubber. Rubber engine mountings that insulate the engine from the chassis. Rubber shock insulators that replace the oldstyle metal spring shackles. Hence, a delightful difference in the effortless ease of travel.

We could fill this whole page with type telling why Chrysler is so vitally different. But a five-minute inspection, followed by a brief drive, will tell the story far more graphicallyand completely.

That's the reason for Chrysler "Learnthe-Difference" Month. So that you may learn the all-inclusive superiority of Chrysler, see it - experience it-

Doubtless in those times and circumstances the recaution was justifiable.

But trade and commerce now have such broad implications and such ramifications into almost every calling of life as to make the meticulous application of the letter of the law absolutely prohibitive of any competent direction of the national treasury operations. It would practically prevent any one but a highway tramp or a poorhouse inmate from qualifying as secretary of the treasury.

The tremendous upswing in aviation enterprise is, of course, largely due to popular support of aeronautics—a subsidy of popular sentiment and enthusiasm which has done more for American aeronautics in two dozen months than government subsidy has done for European aviation over a period of many years.

We have reached a point in this country where large-scale, long-distance air transportation is established on a firm footing. The trans-continental roads of the air have been or are being created.

# It Isn't Charity If It Forges Chains for the One Who Accepts It By Robert Quillen-

If an ordinary man meets a beggar on the street, and the beggar asks for and receives a dime, the ordinary man reserves the right to cide how the dime shall be spent. If it is used to buy bread, he is content; but if it be used to buy tobacco or a flower, he feels tricked and cheated.

"The filthy crook," he will say; "spending my money foolishly."

Thus he makes two errors: first, in assuming that he retains some

interest in money that is no longer his; second, in assuming that his generosity qualifies him to determine what thing it is the beggar most needs and desires

It is the age-old error of assuming that the business of being one's brother's keeper includes the business of taking away the brother's liberty and keeping his conscience and his soul. She is sensitive about it. She is inclined to brood—to feel sorry for herself—to feel resentful. She considers herself a burden and a handicap.

were approved today by the senate interstate commerce committee and sent to the segate.

The committee failed, however, to decide on the nomination of O. B. Colquitt, former Texas governor. as a member of the board of mediation, and another meeting will be held later in the week for him.

All three of the nominees were called before the committee, although tentative approval previous had been given Saltzman and Colquitt. The committee gave its indorsement to Saltzman with the understanding that he would dispose, before his confirmation, of stock he holds in the General Rlectric Company and in the American Telephone & Telegraph Company.

Mr. Colquitt was questioned about testimony published in an old lawsuit to the effect that the Texas Brewers' Association had discussed with him a loan of its \$25,000 surplus at the time Colquitt, was running for the senate in 1916.

Colquitt denied he had received the loan, denied the testimony and denied he made arrangements for receipt of the loan. He said the brewers had opposed him for the senate. He said that after the senate race, in which he lost, that he did borrow some mon-

day in Fulton superior court by J. M. Dobbin.

Dobbin.

Dobbin alleges that Gossett, business agent of a bricklayer's union, of which the petitioner formerly was a member, approached the plaintiff at Marietta and Forsyth streets on June 19, 1928, and asked him about the brick work on the new Shrine temple. The plaintiff alleges that when he told Gossett that he knew nothing about the matter except that the work had started, Gossett hit him above the right eye, and then on both the right and left jawbones, fracturing both bones, meanwhile cursing the petitioner. Dobbin alleges that as a result of being injured, he spent a week in Grady hospital. The suit was filed by the firm of McClelland, Savage and Crawford.

How and Why Ironized Yeast Works Flesh-Building Wonders Works Flesh-Building Wonders
IRONIZED YEAST is two great tonics
in one. Weight-building YEAST and
strengthening, blood-enriching IRON.
The Yeast is Brewer's Yeast—the
kind used in making malt and which
makes malt so beneficial. It is especially concentrated for quick fleshbuilding results. It takes a whole ton
of Brewer's Malt Yeast to make less
than 3 bushels of the concentrate
which goes into Ironized Yeast. You
can readily see what extra flesh-building value is given the yeast by this
extraordinary concentration.

# THE REFRIGERATOR OF THE FUTURE

Once again we present to the citizens of the various communities throughout the State in which we serve, an opportunity to acquire modern refrigeration equipment for their homes on most unusual and appealing terms.

This is your opportunity—your neighbor's and your OWN! This is your opportunity to decide whether or not you will be content with old-fashioned, antiquated refrigeration — or have the best that modern science can produce.

Fifteen years of painstaking development by the General Electric Research Laboratorics are behind the perfection of this "Refrigerator of the Future." Yet you can avail yourself of all that these years of testing have brought forth—for only \$10 down and a few dollars a month!

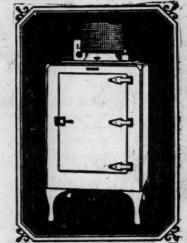

In fairness to yourself you should investigate this equipment without delay. The health of your family is too serious a matter to be shrugged aside. The General Electric Refrigerator, with its constant even temperature, is a safeguard against food spoilage that should be yours.

See "The Refrigerator of the Future" at your earliest opportunity—at any of our 60 retail stores in Georgia. Let an attendant explain why you never need to oil it . . . why you scarcely hear it . . . how it plugs into any light socket and requires no other connection! Take time to investigate thoroughly its many superiorities—the mechanism sealed against dirt and moisture; its economy of operation; the temperature control located ON TOP within easy reach.

Find out about these features of the General Electric Refrigerator. Decide on the model best suited to your needs. The rest is easy. Ten dollars down, regardless of the model you select—and thirty months  $(2\frac{1}{2}$  years!) to pay the balance. Certainly you need not worry about cost when you can pay for it as you use it.

A new wall on the north side of the Tech High machine shops to make the structure safe for students will be recommended by experts who are making tests on the foundations, it was learned Tuesday. Although and official recommendations have been made as yet, it was pointed out that repair work on the wall will be useless as tests have shown that marsh lands extend to a depth of 15 feet and the present wall is not on firm foundations.

Boring tests have been in progress for several days and are expected to be completed within the next few days under the direction of Richard Voss, engineer for Robert Hunt & Co.

# Chemistry Is Best Farm Relief, Master of Grange Tells American Society

New Uses Found for

Columbus, Ohio, April 30 .- (A)-Chemistry, by finding new uses for farm products and by-products, can do more toward "farm relief" than any legislation congress may pass. Louis J. Taber, Columbus, National Grange master, told the American Chemical society today.

When new uses for agricultural products are found by the chemist, he said, the burdensome surpluses will

Major T. P. Walker, of the Commercial Solvents Company, Terre Haute, Ind., told of the use already made by industry of farm products and by-products. Corn, cotton, sugar and milk are the American farm products most frequently used in industry, he said. Chemistry is not, however, he said "A Messiah come to save the farmer."

Over 50 Corn Products.

More than 50 products are made from corn, through chemical processes, Major Walker said, including soap, glycerine, salad oil, glue, rubber substitute, fertilizer, syrup, starch and many others. He listed paint, paper, celluloid, rayon, smokeless powder and artificial leather as among the cotton products; ethyl alcohol and insulating heard from sugar; and glue, buttons. board from sugar; and glue, buttons, umbrella handles, combs, and other articles from casein, the solid por-

said, the burdensome surpluses will begin to disappear, and these surpluses are a great part agricultural problem. Taber spoke in a symposium on "The Relations of Chemistry and Agriculture."

In addition to discovering new uses for farm products as the raw materials for industry Mr. Taber said agriculture looked to chemistry to find cheaper plant foods, such as nitrogen; to find better ways of detection of adulteration of foods; and to find more effective ways to combat the pests "that menace rural prosperity," such as the corn borer boll

# POWER LEADER DENIES

Washington, April 30.—(47)—Emphasizing that no efforts to influence editorial policies have been made, Archibald R. Graustein, of Boston, president of the International Paper and Power Company, testified before the federal trade commission today that his company and its affiliated concerns had purchased stock in 13 newspapers in various sections of the newspapers in various sections of the

Appearing as a witness at the commission's investigation of the recent purchase by his company of stock of the Boston Herald and the Traveler, the Boston Herald and the Traveler, Graustein declared the company's stock holdings in newspapers were procured to obtain outlets for its newsprint paper products. The Inter-national Paper Company is a subsid-iary of the International Paper and Power Company.

Mr. Graustein said the stock hold-

ings in the newspapers were in no way associated with the hydro-elec-tric and power project of the paper and power company and its affiliated

concerns.
"There is not a case of a news-paper where we have the control," he said, "and where the control is not in

other hands."

"I have never met an editor of any of the papers," he declared. "We have nothing to do and do not want to have anything to do with news and editorial policies. The only contact we have is with the newspapers' business offices. We know there is the danger of suspicion of our controlling editorial policy and we feel we must keep 100 per cent clear of influencing news and editorial policies."

Prior to the testimony of Mr. Graustein, Robert Lincoln O'Brien, of Dedham, Mass., former president of the Boston Publishing Company, which publishes the Herald and the Traveler, and former editor of the Herald, and James Garfield, of Boston, secretary of the publishing company, testified concerning the negotiations leading up to the purchase of the stock of the two newspapers by the International Paper & Power Company.

william Lavarre, who with Harold Hall, publisher of the South Carolina and Georgia newspapers, mentioned in the testimony, issued a statement here in which he said the transaction was solely for the purpose of raising capital and the newspapers "will be the same as ever independent"

He added that he had signed the note for the loan with the International Paper Company last Friday. In no way, he said, would the news and editorial columns be influenced by the transactions. the transactions.

Mr. Lavarre's statement follows in

Mr. Lavarre's statement follows in full:

"The International Paper Company
—I know nothing beyond what I have seen in the papers regarding the new corporate name of the International Paper & Power Company, has a note signed by me for \$870,000. This note is amply secured by collateral of which the capital stock of the Augusta Chronicle and the Columbia Record is a part so I suppose I am in the same position, as a borrower of capital from that company, as Mr. Winslow of the Boston Traveler, Mr. Thomason of the Chicago Journal, Mr. Strons of the Chicago Daily News, and Mr. Bryan of the Tampa, Fla., Tribune and Richmond, Va., News-Leader, but taking the standing of these men in the publishing business as an index I seem to be in very good company. They can and no doubt will speak for themselves.

No Reason for Commotion

No Reason for Commotion.

"So far as we are concerned I see no reason for any mental, moral or economic commotion. Newspaper publishers, like any other business men, like to expand. Either to expand one property when the opportunity is evident for greater income or to expand by purchasifig other property. Either way additional capital is necessary and with the money market in its present hectic state it seemed to me not only an unusual opportunity to present actic state it seemed to me not only an unusual opportunity to obtain money at a reasonable interest but from a source so closely allied with our problems as a paper company. In view of the fact that the news print contracts which we have signed gives us news print paper at a cost considerably under the price which most publishers have been paying the last few years we are doubly fortunate.

"There is no doubt that some of our competitors will grab at this news and run with it. The smaller the mind the more eagerness there is to yell 'utility.' That will be a defensive attitude on their part rather than anything else. The policies of these newspapers and any others which we may purchase will be the same as ever, independent in its views and free from all influences.

## STOCK OF LIQUOR AND RUM BOAT TAKEN AT WHARF

Brunswick, Ga., April 30.—(P)—
The Brunswick jail held seven new inmates today and customers officers had a specially built liquor boat, an automobile truck and 350 cases of assorted liquors valued at approximately \$20,000.

The men were arrested by K. E. Ammons, deputy collector of customs, assisted by Glynn county police, as they were unloading the liquor from the boat. Three others escaped as the raiding squad appeared.

The boat, alleged to have loaded in Jacksonville, landed at Dover Bluff, a small river point in Camden county 25 miles from Brunswick. I. King, who gave West Palm Beach as his home, said the boat and automobile truck were owned by him.

# Utilities, Aviation List In Vanguard of Advance

New York, April 30.—(P)—Passing of the month-end credit stringency with the drop in call money from 14 to 10 per cent today started a broad upward movement of prices on the New York Curb Market. Public utility and aviation shares were in the vanguard of the advance, with at least a dozen issues breaking into new high a few isolated soft spots.

Brokers reported a marked expansion in public participation, which stimulated a revival of pool activities in some of the recently neglected issues. Extension of the curb ticker service to the Pacific coast tomorrow also was hailed as a bullish factor.

The exchange has decided that quotations hereafter will be in sixteenths of a dollar and that the commission rate will be 1-16, or 6 1-4 cents, as against 1 cent previously.

The usual crop of merger and dividend rumors accompanied the rise in public utility shares. Special buying of United Corporation, the holding recently organized by the J. P. Morgan interests, which advanced nearly 3 points to a new high at 56 1-2, was associated with reports of its early transfer to the "big board." Central States Electric bond shares ran up 6 1-2 points and American & Foreign Power warrants, American & Foreign Power & Light and United Gas Improventies and Light a

# DEMAND FOR STEADY INVESTMENT, SECURITIES BALANCES BOND ISSUES A.T. AND T. OFFERS HUGE BOND ISSUE TO STOCKHOLDERS

tors of the American Telephone & Telegraph Company today offered stockholders rights to purchase approximately \$219,000,000 in convertible 4 1-2 per cent bonds, the largest bond offering in recent years, in the ratio of \$100 par value for each six shares of stock held.

The bonds are convertible into co mon stock at \$180 a share during the year 1930, \$190 a share during the years 1931 and 1932, and \$200 a share during the years 1933 to 1937, inclu-

sive. In their conversion, however, the bondholder may take one share of stock for each \$100 par value of bonds by paying the difference between the conversion price of the stock then in effect and \$100.

was apparently due to a slackening of market activity, rather than more abundant credit. A year ago the April average was but 5.03 per cent. It is understood the New York Federal Reserve bank has added about \$25,000,000 in bills to its portfolio in the last few days, which has probably helped the credit situation over the month-end, out these purchases are said to have been made through repurchase agreements with dealers, and represent no change in policy. Another factor in the situation was the receipt of \$8,000,000 in gold from Germany last night.

Washington, April 30 .- (AP)-Call Washington, April 30.—(A)—Call the present credit situation. "financial indigestion," Harry A. Wheeler, of Chicago, first president of the United States Chamber of Commerce, told the seventeenth ainual meeting of that organization today that the only way to obviate present difficulties is to curtail the issuing the "innumerable shares of new stock," until the market h.s. The present credit difficulty does not require a "major operation,"
Wheeler today told the conference, "provided that we can induce intelligence of the conference of the c gent co-operation on the part of all who participate in granting and using

who participate in granting and using credit."

"If physically we felt the discomfort of indigestion," he continued, "we would not continue to load our stomachs with more food. Reviewing activities to which he credited the present situation, he pointed out that from 1924 to 1927, the average new issues of preferred and common stock were annually about \$1.131.000,000. Last year, he said, \$2.900,000,000 worth of new physical stock were considered to the said.

about \$1.131.000,000. Last year, he said, \$2,900,000,000 worth of new shares of common and preferred stock were put upon the market.
"If any restraint had then been shown," he added, "we might expect some gradual correction; but during January and February there were horsely out new preferred and company that the said of the sai brought out new preferred and com-mon shares amounting to \$1,130,000,-000"-more than 40 per cent of all 1928 issues.

"Banks must share responsibility with originating houses for failure to curtail further dilution of available credit, Wheeler warned, and neither the handsome profits heretofore en-joyed by oiginating houses, the advan-tages to former owners of taking a part of their investment out of business, nor the direct profits and by-products accruing to the underwriting banks should be permitted to weigh against the danger of further aggra-vating an already difficult situation."

Daily Views of Wall Street Stock Market by Telegraph.

New York, April 30.—(Special.)—A 14
per cent renewal rate for call money had
no perceptible effect on stock prices, and
when the rate declined to 10 per cent
there was a pronounced broadening of bullish operations which resulted in sharp advances in favored issues.

Apprehension concerning the latter may
develop in Thursday's market, but so far
as the policy of short term traders is concerned, it might well be anticipated by
profit taking tomorrow.

On reactions we continue to favor rais
and utilities, American Cyanamid, which
has been recommended from time to time,
is showing a stronger tendency and should
be purchased on reactions together with
Pierce Arrow, Paramount, Fox Film, and
for a speculative turn, based on field developments, Simms Petroleum.

New York, April 30.—(Special.)—Ignoring tightness in call money which is presumably out of the way for the time being, constructive operations went forward in vigorous fashion in yesterday's market.

Technically speaking the market has not yet broken out of its rut but a bearish trader can find little comfort in technicalities at the moment. It looks very much as though the bull market had gained and other lease of life.

Whether the duration of its final phase will be counted in weeks or in months is of less importance at the moment than recognition that the upward trend of the market is apparently well established.

ERRY AND I PROMISED CAPTAIN JOHNNY WE WOULD SPY ON THE PELHAMS TODAY AGAIN, IF IT DIDN'T RAIN. BUT, HOW IT RAINED! CAPTAIN JOHNNY THINKS WE ARE BUM SPIES, BECAUSE ALL WE FOUND OUT SO FAR, IS THAT THE PELHAMS ARE FIXING SOMETHING UP TO GET EVEN WITH US SINCE WE GOT OUR STRANDED HOUSEBOAT AWAY FROM THEM AGAIN. THE RED HEAD IS BACK THERE AGAIN, AND HE IS IN ON ANYTHING THE PELHAMS ARE GOING TO DO. RAINY DAYS ARE GOOD DAYS TO READ AND WRITE LETTERS, SO I GOT BUSY AND WENT THROUGH MY MAIL, AND ON! DIDN'T IT RAIN!

## OIL PRODUCTION SHOWS SLIGHT DROP OVER WEEK

New York, April 30 .- (P)-The daily average gross crude oil production in the United States decreased 21,200 barrels for the week ended April 27, totaling 2,650,650 barrels, according to the weekly summary of the American Petroleum Institute. The daily average production east of California was 1,862,950 barrels, a decrease of 12,300 barrels.

# Produce

Early demand and trading yesterday were dull and inactive. There were rather heavy aupplies, both on track and in the houses. Supplies of beans and tomatoes were especially liberal. The market was rather dull on most commodities, with but little change in prices. Onions were slightly weaker. Tomatoes were about steady, but were showing a slightly weaker tendeucy. Strawberries were weaker, with light supplies and but very little demand: most of the present supplies of strawberries were from Georgia. The bean market showed a wide range in prices and was unsettled. The market on potatoes, lettuce and celery was holding steady.

## FARM WORK HELD UP BY RAIN; COTTON PLANTING IS OVER

Washington, April 30.—(P)—The department of agriculture announced today that farm work had been delayed by bad weather in northern areas, that there had been an early season in the south and the general outlook on the live stock situation vas favorable.

The spring program in the northern areas was slowed up considerably by bad weather but resulted, the department said, in a good supply of mois-ture in the soil, particularly in the western wheat belt.

Cotton planting in the south has been about completed in the northern section, and plants in the southern portions are making rapid progress under favorable conditions.

The department found fruits have had a bad start, the April frosts having cut to one-fourth and one-half the California peaches, cherries, plums, almonds and pears. Local damage from frost also was suffered in the eastern fruit sections. given medals and prizes for being the best marksmen, the best officers and for showing the most interest and best work in military affairs in

WITH THIS CREAMY SHORTENING YOU REALLY DO "WHISK UP A CAKE" . No need to cream your shortening into your sugar or cut it into your flour. Just a few stirs of a spoon and the two are blended perfectly . . . you really do "whisk up a cake" when you use Snowdrift. Try this recipe for Cup Cakes, and see if it isn't true:

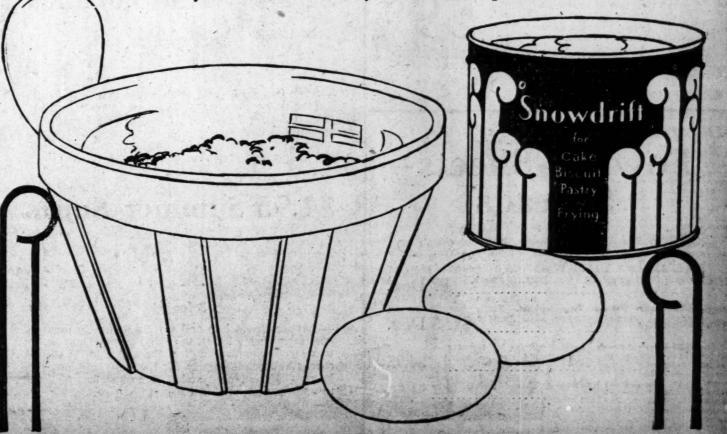

CUP CAKES

1/4 Cupful Snowdrift . 11/2 Cupfuls Sugar . 1 Teaspoonful Vanilla . 1/2 Teapoonful Salt 3 Eggs . 1 Cupful Milk . . 3 Cupfuls Sifted Flour . 4 Teaspoonfuls Baking Powder

Mix Snowdrift and sugar and add wellbeaten egg yolks and vanilla. Sift flour, baking powder and salt together and add

alternately with milk. Fold in stiffly beaten egg whites and bake in mustin tins in a moderate oven (375 degrees F.) for 20 minutes.

The reason Snowdrift is so easy and pleasant to use, you know, is because it's so creamy . . . we cream it for you before it is packed in the air-tight cans-

# Southern Christian Home Holds Silver Tea for Building Fund

Among the interesting and praise worthy events scheduled to take place during the week is the silver tea to be given at the Southern Christian Home from 3 to 6 o'clock Friday afternoon, May 3, the proceeds to go toward the building fund of the home. The Southern Christian Home, of which Miss Sue Steiner Hook is the able superintendent and guiding spirit, is one of the most meritorious of Atlanta's charitable institutions. Situated at 1011 Cleburne avenue; N. E., the building consists of a spacious basement, a first floor which has been completely renovated and refurnished, a girls' dormitory on the second floor, with a hospital to be erected later on the third floor. An electric elevator will be installed and carpenters are to work on the second floor, with plans going forward to make the plant modern and up-to-date in every respect.

which made possible the new regime
of modern ideas in health and hygiene.
If a juxtaposition of the twentith
and the tenth centuries could be conceived, some idea might be gleaned
of the Herculean labors Hadassah
has had to perform in introducing a
modern American health program into
Palestine. Steeped in a tenacious belief in myth aml magic, the natives
of Palestine practiced all kinds of
ancient rites to cure illness—conjurings, smearing, amulet-wearing, weird
incantations and the application of
hot irous to affected portions of the
body—intended to drive "the devil of
illness" away. Into this medieval setting came Hadassah with the latest body—intended to drive "the devil of illness" away. Into this medieval setting came Hadassah with the latest scientific ideas. Distrust, born of ignorance, greeted the first Hadassah nurses. But the obvious benefits derived from their treatment, especially in cases of trachoma, the eye disease, quickly turned suspicion into wonder, even awe, and the Hadassah doctors and nurses were suddenly recorded as and nurses were suddenly regarded as supernatural beings. These extreme attitudes were gradually toned down as the people of Palestine began to understand the significance of scien-tific application. This work went on,

There will be another great crowd at this next demonstration. Come early! Don't miss seeing how to get a lovely white wash-without scrubbing, without boiling!

# The DeBoth Method

In these demonstrations the DeBoth Schools use the famous laundry soap-Rinso. Granulated, compactone cupful gives more suds than two cupfuls of lightweight, puffed-up soaps. Thick, creamy, lasting suds that loosen dirt like magic.

It is wonderful to see, right on the platform, how grimy clothes are just soaked in the thick Rinso suds ... rinsed in clear water ... and held up before the audience, spotless! What a saving on the clothes, No wonder Miss DeBoth encourages this method! No wonder women in the audience are delighted and

We know that when you see the DeBoth demonstration, you will want to have Rinso in time for next washday. Get the big household package from your grocer. It's all that's needed-no bar soaps, chips or powders. For economy and best results, see that the easy directions on the package are followed.

# Great in Washers

32,000 demonstrators of washing machines use Rinso alone to show their washers at their best. And the makers of 34 leading washers endorse it for safety and for whiter clothes. Come to this newspaper's demonstration and see why!

So Peter Rabbit was full of curiosity.

So Peter Rabbit was full of curiosity. Be that a nest, "thought Peter. "They probably have built it in a big tree. I'll just go look over all the big trees that are fairly near the pond. Probably they built a nest of sticks, the same as Quack the Night Heron. Anyway, whatever they have built it of, it must be fairly big."

So Peter wasted a lot of time and patience looking up in trees until his neck fairly ached, but nowhere did he see a nest that he thought belonged to the Wood Ducks. Two or three times he thought be had found the nest, only to discover that he was mistaken. Once it was a squirrel's nest. Perhaps you can guess how disappointed Peter was. Finally he began to doubt if the Wood Ducks had any nest at all. Every day you could see them swimming about in the pond of Paddy the Beaver and feeding there. Sometimes Beauty would be alone. This became the condition more and more often until finally Peter had only occasional glimpses of Mrs. Wood Duck." "Where is Mrs. Wood Duck?" Peter

Kellogg's ALL-BRAN Will Protect You

People are more careful than ever before about diet. They diet to clear complexions. They avoid certain foods to stay thin. They eat others to get fat. But many are running a serious danger because they are missing the "roughage" or "bulk" foods that every person must have to keep well.

As a result, constipation gets in its deadly work. Headaches, listlessness, circled eyes are only the first symptoms. In the end, constipation ruins health, wrecks beauty and may cause serious disease.

Don't neglect your daily roughage. That is nature's rule. Kellogg's ALL-BRAN will supply it. A healthful cereal to eat each day. To use in cooked dishes or to serve with milk or cream. To mix with other cereals.

ALL-BRAN is guaranteed to relieve constipation—to prevent it. Two tablespoonfuls daily—chronic cases, with every meal. It is 100% bran. Doctors recommend it. Your grocer sells it. Served by hotels, restaurants, dining cars. Made by Kellogg in Battle Creek.

More than 500 leaders in the study of that little known but manifestly important organ, the human brain, in its relation to human life, will assemble in Atlanta during the week of May 13 as the annual convention of the American Psychiatric Association meets here for the first time since the founding of the group in 1844. Not only is this the first time that Atlanta has had the opportunity of which is daily becoming more obvious, but it will mark the first time since the founding of the group in 1844.

The sessions at the Biltmore hotel are to be open to the medical profession and it is likely that, should there be a demand for it, there will be one session open to the public. Should such a session be held, some of the most outstanding authorities on mental troubles will give addresses couched in terms understandable to the layman and calculated to convey a bit of that fascinating study of brain behavior. # MELLON VISIT GIVEN SENATE BODY STUDY

Whether Secretary Went on 15,000 Police Are in Readi-Official or Personal Business. Is Question.

The committee has been considering the report prepared by Chairman Norris, finding the treasury secretary to be holding office illegally, but no decision was reached. An effort for a vote may be at a meeting called for temperory.

temorrow.

Seeking approval of the Norris report, Senator Walsh, democrat, Montana, at today's session continued his discussion of a deposition given by Mr. Mellon in an old lawsuit which disclosed the Canadian visit. The Montanan contended Mellon's Canadian visit showed he was interested in carrying on business.

Violated Statute.

The Norris report declares that the

The Norris report declares that the treasury secretary as a stockholder in various enterprises has violated a hundred-year-old statute forbidding the head of the treasury department be interested in carrying on trade

or commerce.
Some members of the committee want an inquiry to be made into the Mellon visit to Canada, where the Aluminum company had taken over a power development from the Duke

tobacco interests.

Friends of the treasury secretary argued today that his Canadian visit was in the interest of settling a point about distribution of slock in the new oncern between the Duke company and the Aluminum company. They contended he therefore was interested only as a stockholder. After the Aluminum company took

over the Canadian power plant of the Duke interests, it was agreed that the stock distribution of the new en-terprise should be made on a basis of eight-ninths to the Aluminum stock-holders and one-ninth to the Duke stockholders.

Looking After Affairs. Looking After Affairs.

Friends of the secretary said it was his purpose, in the Canadian visit to look after his share in that division of the new stock. The deposition of Mrs. Mellon was given to attorneys for a party by the name of Haskell, who sued the Duke and Aluminum companies for violation of the anti-

companies for violation of the antitrust laws.

There is only a casual reference in
the deposition to the Canadian visit
and Senator Walsh regards this phase
of the Mellon case as "vague."

Friends of the secretary are about
to open their argument in the committee and there is every indication
of a close division, with the line-up on
the Norris report in doubt.

It is certain, however, that the report of Senator Norris will be laid
before the senate either as a majority
or minority report, thus forcing senate action on it.

Speaking to a capacity audience, Jessie Marie DeBoth, director of The 'Atlanta Constitution's Cooking and Home-Making School and nationally-famous authority, conducted the first session of one of the most unique and outstanding events of its kind ever presented to the women of the South!

The school is significant to every woman of this section in that it affords new ways of preparing foods and tasty dishes, and information most valuable regarding the homemaking problems of the modern day.

Every woman who was present at yesterday's session will doubtless be on hand today. The treats that are in store for all will bring those who know of them, back again-but do not forget your friends who may have overlooked the opportunity. Extend them an invitation to accompany you. They will enjoy and profit by your thoughtfulness.

STEWART VOTED \$50,000 A YEAR PENSION, REPORT

New York, April 30 .- (P)-The New York American said today it has learned on good authority that the board of directors of the Standard Oil Company of Indiana has voted pension of \$50,000 a year to Colonel Robert W. Stewart for his years of service with the organization.

Colonel Stewart was deposed as chairman of the company by John D. Rockefeller, Jr. The American says the pension carries with it the understanding that he is not to join any competitor of the Indiana company or its subsidiaries.

James W. Stewart, son of Colonel Stewart, resigned yesterday, as a di-rector of the Lago Oil and Transport Company, a Standard of Indiana sub-

The inaugural cup event lists the names of several former and present record holders in the various distances. It will be run at the futurity distance which is 165 feet longer than the quarter mile. Every animal in the eight holes bears a record of fine performance on his back. Chiefamong the former winners in this race are Red Roy El, Peerless Joe, Cheerful Cackle, Sunrise and Muscovite. Any one of these dogs is likely to set a record.

The eighth race, a hurdle event at 1-4 mile, will feature the great English dog, Bandmaser, one of the finest jumping animals in the United States. He will meet Hard Cash, Cash Here, Lads Ruin, and some other great jumpers.

The sixth race, a 3-16 sprint, will flash a great list of sprinters. Tactician. Skipper Lee, Electric Worker and Powerful Mutt are only four of the dogs that will compete in the first sprint of the season.

Year Helped The Haig To Win Open.

New York, April 30.—(A)—If Walter Hagen reacts to his own and the American Ryder cup team's defeat in England as he did a year ago to adversity, he will be hard to stop in the British open championship nextweek. He may be hard to check, anyway, for "The Haig" has won this classic of golf three times in the last tew years but he likes to have an added competitive stimulant.

Hagen, it may be recalled, took a terrific trouncing from his big British rival, Archie Compston, about this time a year ago; beaten, to be exact, by the lopsided score of 18 and 17 in a 72-hole match. Thereupon the veteran American home-bred came back to distance Compston and everyone else in the British open.

Last Saturday Hagen took just as bad a trimming when he lost to the fast-moving George Duncan by 10 and 8 in a 36-hole match. To make matters worse, it was the worst defeat suffered by any member of the American professional team and particularly annoying to Hagen as the captain of the invading forces.

Crowd Braves Stormy Night To See Veteran Lose Decision.

By Ed Danforth.

Lawrence Corley, otherwise known as Ted Goodrich, swarmed over the rail of the good ship Larry Avera last night for 10 rounds and won the unanimous vote of three judges. Goodrich's victory was clear cut and in carving the decision, Lawrence, otherwise Ted, made one of the most stirring battles the auditorium ring has produced in many a night.

has produced in many a night.

The weather was "inclement" to use the brand new word barked by "Fat" Elrod, silver throated announcer. On second thought "Fat" put it mildly; it rained hard from milking time until well past the zero hour. Yet Atlanta ring bugs, apparently in the throes of a cauliflower revival, charged into the house regardless. In other days on such a night the show would have been called off; congratulate Max Abelson, promotor, for going right on through with it and repaying the thousand customers for their wet trip.

poison has drained from his fang-like left.

Avera stepped away, flicking a left into Goodrich's face, and commanding thereby a slight lead in the first two rounds.

Goodrich opened up in the third and began to find openings between Avera's elbows to drive a few body punches homes. Ted all but sewed up the fight in the fifth when he lured Avera into a slugging match that set the crowd wild.

Then in the sixth, as Larry was rolling along the ropes out of a clinch, Goodrich landed a right to the chin and knocked Avera flat and flighty. Larry took a count of nine, while Billy Lotz, his veteran manager, peered up at the roof trusses over the tops of his glasses—and then rose to his feet.

Goodrich did not know how to finish his man and the canny Avera weathered the round on with both pins under him.

Oldham, the famous redhead who was a pitcher while many of the present Bears still toddled around in knee breeches, proved this afternoon that he still is gifted with sufficient cunning and ability to trim this Mobile ball club. "Red" took up the throwing for Atlanta in the fourth inning after the Bears had shown a liking for slants dished out by Rauch. He flung his rusty left wing in a fashion which would do justice to a master and at the end the Crackers were on the long end of a 7-to-4 triumph, their third in as many days. And the Bears were forced to take what was left—another beating which, incidentally, marked the eighth in a row for the home boys.  Atlanta beat Marty Griffin, a sky-scraping right-hander from the Long Horn league, after the Bears had jumped into a lead by assailing Hauch. Settlemire succeeded Marty to the firing line and pitched fairly good ball. Ernie Koob was the last of the Bears to take a fling at the visitors.  GOOD PULLS RAUCH.  Uncle Wilbur Good, chieftain of the Crackers, lost no time in inviting Rauch to a cold bath after the Bears had scored a pair of runs in the third and another in the fourth with additional men in scoring position. Oldham took up the hurling and after the Bears had tallied once more in the fourth, they had done their day's work.  Griffin kept the Crackers away from the rubber in the second and third and Mobile counted twice in the latter round. Dumas opened with a single to third and Lenihan accrificed.

Leach Dispatched UNCHANGED To Brooklyn for Blond Slugger Emissary Seeks To Get Nick and Keep Rosen-

feld-Deal Would Make Great Outfield.

Nick Cullop will be added to the Atlanta outfield shortly if negotia-tions now under way are completed, it was learned Tuesday. Tommy Leach, Cracker scout, is in Brooklyn attempting to arrange for Cullop's transfer out of the league. He is also seeking to arrange for Max Rosenfeld to be left with the Crackers if the Cullop transfer is

completed. Rell J. Spiller would not comment other than to admit that Leach was in conference with the Brooklyn Robins. The nerves of the Cracker president were so unstrung with waiting that he took himself away from the baseball park and went fishing.

It is entirely possible that the deal may be completed today or tomorrow if it is completed at all. The strain of waiting had pounds falling off the frame of Rell J. Spiller with each ring of the telephone.

ring of the telephone.

Addition of Cullop to the outfield, and the return of Frankie Zoeller would give the Crackers the greatest outfield the Southern league has had since Jimmy Hamilton placed Riki Cuyler, Lance Richbourg and DeWitt (Bevo) Lebourveau in the Nashville outfield six years ago.

Tommy Leach, who was signed as a scout last week, left on Sunday night. He had two stops to make, one to look over the prospect of obtaining Ralph Shinners from Buffalo. His main objective, however, was the office of Your Uncle Wilbert Robinson, of the Brooklyn Robins, de luxe friend of the Cracker baseball club. STRINGS TO DEAL

Rell J. Spiller could have nad Nick Cullop a week ago. At that time the transfer would have meant that Max Rosenfeld would have gone back as the exchange price. Rosenfeld, one of the greatest outfielders in the minor leagues, was as valuable to the club as Cullop.

Spiller than signed Towner Leach

Spiller then signed Tommy Leach and sent him along to lift his finger in the private offices, to apply oil to any troubled waters and to bring home Nick Cullop. There are some who are unwilling to see him waived out but Leach is expected to allay any objection.

The is no definite assurance that Leach will complete the deal but it Leach will complete the deal but it is believed that Your Uncle Wilbert Robinson will finally capitulate and let the Crackers have both Rosenfeld

and Cullop.

Cullop made an auspicious start with the Robins. He slugged all the way through the exhibition series and battered rival pitchers in the early games of the schedule. He was bench-ed following these games because of a failure to maintain the major league demands as to fielding and

ANOTHER TRY.

There has prevailed, since the training season, the belief that Cullop would be returned to the Crackers. His heavy hitting dissipated most of it, but Cullop's benching sent the Cracker officials off on another try. Jack Hendricks, while here with the Cincinnati Reds, declared that he would not claim Cullop in the event the big fellow was offered on waivers. "I don't think there is any doubt but what Cullop will be back with the Crackers," he said. "He won't stay in the major leagues. His hitting is good enough, but he is just a little bit shy on his fielding and his throwing. He is sure to come back to the Crackers."

At that time Nick Cullop was shattering fences along the route the Robins took home and the Cracker officials greeted the announcement with a wan and sickly smile. They didn't believe then they had a chance, Subsequent hitting by Cullop dispelled practically all hope. Cracker fans will greet the new announcement as a condemned man a reprieve.

To Improve Team. Stronger Than Ever.

Memphis baseball stock took a tremendous jump Tuesday when it was announced that Harry Kelly would join the pitching staff. Kelly was let go by the New York Giants and was claimed by the Chicks. Kelly won 21 and lost 10 games for the Memphis club last season. Doc Prothro's club, already rated as one of the most formidable in the league, will take on new strength with the addition of Kelly.

Strange Procedure Gives Chicago Fourth Straight Victory Over Indians.

Chicago, April 30 .- (AP) -A freak triple play that left the Cleveland Indians standing around wondering how it all happened, put a high polish on the Chicago White Sox' fourth straight victory over the Billy Evans-Roger Peckinpaugh crew today. The score was 8 to 4, but even if the Sox had lost, the day would have been a success.

The play occurred in the seventh mon version of the hidden ball trick.
Hodapp batted for Willis Hudlin and singled to right singled to right. Jamieson sent a single to center, putting Hodapp on second. Lind grounded to Cissell and Hodapp attempted to score from second as the Sox shortstop tossed out Lind. He was caught between the plate and third where he was run down by Kamm. Kamm concealed the ball in his glove and as Jamieson, who had sneaked to third during the excitement, led off the bag, touched the Indian outfielder out.

The pitching has been good and the players are fighting in typical McGraw fashion. But they can't seem to get going at all. Andy Reese, young second baseman, explains it by saying the Giants can't get keyed up against the Braves, Phillies and Robins, but will hit their stride when the strong western clubs come east.

The Giants, however, are totally unprepared for the arrival of the Cardinals at the Polo Grounds Friday, after which will follow the Pirates, Cubs and Reds in that order.

By Herb Clark.

Georgia Tech's Yellow Jackets will go into the home stretch in their baseball season this afternoon when they take on the Gamecocks of South Carolina in the first of a two-game series at the Flats. The games scheduled for this afternoon and Thursday will begin at 4 o'clock.

The Jackets returned to their play-

ground at Clay field Monday after a disastrous series with Alabama's Tech Lacrosse disastrous series with Alabama's in which the Tidesmen took three games of the four played. Coach Clay's charges have busied themselves in hard workouts in a last effort to be ready for the Gamecocks and their successors, Georgia's Bulldogs, who come here for two games on Friday and Saturday at Spiller field. The Bulldog series will be completed by two games at Athens on the following week-end.

Coach Clay has had little success with his charges thus far, and the Jackets probably will be well down in the list of conference standings when the books are balanced some three weeks hence. YOUNG HURLERS.

The Jacket pitchers, young and green at the start of the season though with prospects of being good hurlers, have gone against several good teams thus far, and have had plenty of experience, most of it on the short end of the score. None of them have shown signs of breaking under fire as yet, and it is just possible that they will find themselves in the Gamecock and Bulldog encounters.

The catching staff, led by the veteran captain, Jimmy Stevens, has handled itself well, the soplomore Herron having shown exceptionally well in the games he has caught.

Outfield difficulties, the most potent of which was the loss of Waddey in center field, have hurt the Jacket cause. Waddey has always been strong at the plate and his fielding has been sure. Since he left Bobarham has been moved to center, and a crew of youngsters has been forced

WON FOUR GAMES.

The Giants have won four games—all of them from the Phillies—and lost four—two to the Braves, and one each to the Phillies and Robins.

Claude Willoughby handed the Giants their first defeat in an eleveniming game won by the Phillies, 3 to 1. George Harper's home run gave the Brave: a 4-to-2 decision over the Giants. The Braves beat the Giants in the other game, 5 to 4. In both losses to the Braves the Giants started ninth-inning rallies which were squelched.

Larry Benton, ace of the Giants' staff last year, has failed to win a game thus far, but the other pitchers have performed capably. Carl Hubbell has won two games. Fred Fitzsimmons, Carl Mays, Dutch Henry and Bill Walker have pitched well each time they have gone to the mound. FORM AND EFFORT.

Mike Sweeney, the famous physical director of Hill school, brings up one of the most important factors in form development or form improvement. "The problem of acquiring form," says the veteran director, "should be accompanied with no thought given to the matter of physical effort. The idea of effort defeats or checks the idea of form. They can go together after form is perfected or at least is made intuitive. But too often the contestant or player tries to work out both at the same time." This is completely true. A ball player or a golfer trying to work out a correct method of swinging also tries to hit the ball as far as he can at the same time. The double scheme won't the basis of form, as outlined several dozen or several hundreds of times in these dispatches, is smoothness. A smoothness that is not the same time of game, 1:45.

morrow at the Aurora track, was definitely called off late today because of a strike of turfmen.

Clifford L. Trimble, general manager of the track, announced the postponement. He said, however, that he expected differences would be settled in time for an opening program Thursday.

Turfmen who had their horses quartered at the track demanded that the purses for each race be raised from \$800 to \$1,000. The horsemen also demanded that the management deduct 1 per cent of the winning purses and place the amount to the credit of the Thoroughbred Horseman's Association.

Clifford R. Trimble, general manager of the Exposition Park Jockey Club, flatly refused to comply with the demands.

The strike was called by L. D. Jones, secretary of the Thoroughbred Horsemen's Association. Jones called a similar strike at Hawthorne and also at The Juana last season. In both cases the strike failed.

The Aurora program calls for six purses at \$800 and one for \$1,000 daily. General Manager Trimble said he could not afford to raise the purses and that the horsemen had shipped their racers to Aurora knowing the amount of money to be offered for each race.

ball to date, and it is pretty much a question of pitchers if the Indians are to finish up in the money, or even have a view of the pengant.

And the Indians' management is letting no grass grow under foot. The Indians have taken an option on Milton Schoffner, Jersey City southpaw jitcher, and can call him in at once if he is needed. If Schoffner pitches good ball in his two or three starts and the Indians need him he'll advance at once.

Jersey City needed men and Cleveland came to the rescue with Jessee, shortstop, and Underhill, a pitcher, in return for the option on Schoffner. But the Jersey southpaw is not the only pitcher the Indians have their eyes on. The Cleveland scouts have been at work early this year and the club will not wait until fall to bag the bushers, but may send for a few good men before that time.

HORRIBLE EXAMPLE.

There is no doubt but that the psychological effect is bad. There were just 18 horrible examples of that on the Cracker bench on the day following the game in which Dr. Danforth had stopped the Crackers with three base hits.

There was a unanimous opinion that there was no chance to hit he doctor. They were all admitting as much, saying that unless this league did something about it there would be no chance to beat him. All of which mans that the Crackers will be going up there to the plate with two strikes on them.

interested.

Along in the game Ty Cobb tried stretching a single and was thrown out at the plate. The Steamer is a baseball man, and when a man is out he is out. There are no close ones. It is always one way or the other.

So he called Cobb out. It was Cobb's home town and it was his "day," but he was out, so there was nothing else The Steamer could do. And when Cobb objected The Steamer ejected him from the baseball game. There was, of course, a riot. The life of Mr. Johnson was threatened, but he stood there and stuck to his guns. Everyone was willing for Cobb to play, but it wasn't his game. When the teams take the field the game belongs to the unpires. Cobb left the game, and a few reluctant policemea escorted The Steamer from the field. They would have liked, better than anything, to have bounced a few cluos off his noggin. The very idea! Calling Ty Cobb out on his day and in his home town and then putting him out of the game. The very idea!

London, April 30.—(P)—With a number of "ifs" standing in the way British golf fans hope for a "natural" in the women's championship, opening at St. Andrews May 13, where Miss Glenna Collett, three times American champion, and Miss Joyce Wethered, three times British titleholder, may meet in the final as they are in opposite sides of the draw.

Before the long hitting Glenna can advance to the 36-hole final Friday, however, she will have to dispose of Miss Marion Turpie, native of St. Andrews, but resident of New Orleans, who holds the southern women's title.

Another formidable rival in Miss Collett's half of the draw is Miss Enid Wilson, but the 20-year-old English champion has drawn Miss Joy Winn. of Alderburgh, in the first round and in close proximity is Mile. Simone Thion de la Chaume, present French champion and former British titlist.

Miss Wethered, who played her last championship in 1925, has emerged from a determined retirement to again seek the championship. The Great Britain woman golfer, however, is only 27 years of age. Miss Collett is more than a year younger.

Scored only one run. The Purple came back and scored eight runs in the second half of the chapter.

Carpenter was best for the losers, with a single and a triple, while Ellinton got a hit also. Red Wynne starred for the Boys' High nine, polisitary of the Purple.

about three weeks too early. Judge Roscoe Luke, of the Georgia state court of appeals, also reported a covey of young quail in the vicinity of Thomas-ville last week, and other coveys have been reported in the past 10

There may be something of extreme importance in this situation and it may be just one of nature's pranks Many of the natives around Thomasville are inclined to believe that the early hatching is the result of cross ing between the native quail and the Mexican variety, which have been planted in large numbers in that sec-

Whatever the reason for the strange procedure, it should be hailed joyfully by the hunters of the state. With such a start, the quail should With such a start, the quail should be very plentiful when another hunting season comes. There may also be an omen of danger in the phenomena. As long as the mother quail do not get too ambitious everything will be all right, but if Bob White's wives begin hatching out their eggs too soon they may be caught in the spring flood season and that would cut the quail supply seriously.

Regardless of the cause, this peculiarity of the quail in the neighborhood of Thomasville will give the sportsmen of that section something to talk about.

The young French-Canadian who is ranged ninth among Canadian playing res now has accounted for two of the country's foremost starts in successive days, having downed Willard Crocker, No. 2, in the ranking, in straight sets yesterday. He is expected to make the team that meets the United States at Montreal May 16, 17 and 17.

The Rainville-Nunns match was the longy one completed today. Rain forced postponement of a singles encounter bewteen Dr. Arthur Ham of Toronto and Dr. Jack Wright on Montreal after Ham had taken the first set, 6-3.

talk business with Paddy Harmon, said Pa.

Dempsey, he said, wants Young Stribling to fight Jack Dorval, of Philadelphia, in an outdoor show at Ebbetts field, Brooklyn, May 20; the Garden is angling with him to meet K. O. Christner or Otto Von Porat at the milk fund show, while McMahon would like to send the southerner against Tom Heeney, the Australian heavy, at the New York coliseum early in the summer.

The Striblings had intended going to Europe and try to steam up a meeting with Max Schmeling, the German sensation, but now that Schmeling is on his way back to America, plans for the European jaunt are somewhat up in the air.

The weather was asked if he had a record round. "No, I'm keeping that for my last round in the championship," he replied.

# second message to a most important group of motor car buyers

The 2-Door Sedan, \$745 . Body by Fisher

DEVERAL weeks ago, the Oakland Motor Car Company addressed a message to a most important group of motor car buyers. The members of this group are getting on in the world. They are seeking finer homes, finer furniture, finer automobiles. Oakland's message told them about the approaching announcement of a new automobile created especially for them-one which would enable them to step up the quality of their motor cars without stepping out of the low-priced field. You know the car, of course. It is the New Pontiac

Today Oakland has a second message for this group. It has to do with the manner in which thousands of their numbers have already found in the New Pontiac Big Six the car they have long hoped to own.

The New Pontiac Big Six and the purpose behind it have captured public approval. Its big car luxury and style have aroused enthusiasm. Its big car performance has won respect. And the fact that it provides these big car qualities at such low cost has resulted in an unprecedented volume of orders, necessitating the greatest production in Pontiac's history. The New Pontiac Big Six is an unqualified success.

Oakland's dream of providing a truly fine big car at low price has become a reality. Two years ago it was an idea. Today it is a fact. Before the close of the present year, hundreds of thousands of progressive Americans will be enjoying big car luxury at low cost. It will pay you to come in and investigate the car which has made this possible-the New Pontiac Big Six.

Prices \$745 to \$895, f. o. b. Pontiac, Mich., plus delivery charges. Bumpers, spring covers and Lovejoy shock absorbers regular equipment at slight extra cost. Check Pontiac delivered prices - they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

The Fulenwider all-star players this week at the Atlanta theater are adding new laures to the honors they have already won with their presentation of "Tommy," a lively comedy of young American lovers. Ted Osborn, in the title role, is giving an excellent performance as the young man who was so pleasant to the parents of his best girl the girl herself never could quite decide how much she liked him. Marian Grant plays the part of the capricious young woman.

## Keith's Georgia.

The Weaver brothers and "Elviry," who headline the vaudeville bill at Keith's Georgia this week, have lost none of their entertaining qualities, instead they have added to them. They call themselves the "Arkansas Travelers" and are musicians of note; creen offering is Paramount's alking mystery drama, "The Hole rorites. Also another one of Octavus Roy Cohen's talking comedies, "Music Hath Harms," with an entire colored cast, and "Now and Then," a musical comedy playlet.

The Fulenwider all-star players week at the Atlanta theater are ng new laurels to the honors they have already won with their presenta-tion of "Tommy," a lively comedy of young American lovers. Ted Osborn, in the title role, is giving an excellent performance as the young man who was so pleasant to the parents of his best girl the girl herself never could quite decide how much she liked him. Marian Grant plays the part

## Keith's Georgia.

The Weaver brothers and "Elviry," who headline the vaudeville bill at Keith's Georgia this week, have lost none of their entertaining qualities, instead they have added to them. They call themselves the "Arkansas They call themselves the "Arkansas Travelers" and are musicians of note; but character comedy is their forte. Four other big Keith acts round out one of the best vaudeville bills ever presented in the Georgia theater. The screen offering is, Paramount's all-talking mystery drama, "The Hole in the Wall," with a cast of stage favorites. Also another one of Octavus Roy Cohen's talking comedies, "Music Hath Harms," with an entire colored cast, and "Now and Then," a musical comedy playlet.

Norman Kerry recalled his college days during the making of the final scenes of "Trial Marriage," now at the Rialto theater. In them he is required to handle a physician's stethoscope. The manner in which he used the property of the scene it revealed his training to be a physician and forced the admission that he started life with a firm determinaon to make a name for himself in

# Loew's Grand.

"In Old Arizona," a picturesque story of border banditry, is closing a three-day run at Loew's Grand today. Warner Baxter gives one of the best characterizations of his career in this picture, which also stars Dorothy Burgess and Edmund Lowe. It is a "talking film," with complete sound effects and a wealth of dialog. Reels of current news events and a synchronized comedy complete the screen

Vivid, unforgettable scenes of martial history are joined with a love story of poignant tenderness to make "Two Lovers," the film which opens at the Cameo today for a two-day run, a really brilliant farewell appearance for the co-starring team of Ronald Colman and Vilma Banky. After this picture—they began separate careers.

A dictionary of superlatives would be required to amply describe "The Man Who Laughs," which opened yesterday at the Ponce De Leon theater. This photoplay Managers Swint and Davis are showing will go a long way toward replacing the motion picture in its rightful place as the world's most popular form of entertainment. Never has a more beautiful love story been told than that between Dea, the blind maid, and Gwynplaines, the maimed clown whose facial deformity dooms him to a perpetual grin. Mary

Part of This Medicinal Supply Was Left Over From Last Trip.

New York, April 30 .- (P)-The supply of medicinal liquor aboard the liner Leviathan for her next eastbound voyage was disclosed in a cus toms report today as 547 quarts. Almost half this supply was left his retirement.

over from the ship's last trip from Europe where she stocked up for sale to passengers. The additions to the ship's medical supplies included 121 bottles of champagne, 108 bottles of whisky, 58 1 ttles of vermouth, 50 bottles of gin, 72 bottles of light wine, 12 bottles of heavy wine, 19 bottles of cognac, 35 bottles of cordials and 12 bottles of Bicardi. It was explained that under gov-

ernment regulations the ship is permitted to carry 600 quarts of spirits. The report, made by Colonel William S. Conrow, deputy surveyor of port, showed that in the locker where the liner normally carries her medi-cal stores there were 284 7-20 quarts of spirits. He said both the British and American seals were intact, indicating that in four months not a bottle had been withdrawn for any

In what had been the wine cellars n the Leviathan was the German Vaterland were found 263 9-20 quarts of spirits which were placed under seal as additional medical stores. This cannot be disposed of until the ship leaves territorial waters.

The supreme court now has before it for decision another contempt case against Sinclair at the commitment of Sinclair to jail.

for 30 years a deputy clerk of the Fulton superior court, Tuesday quietly celebrated his ninetieth birthday at his home, 92 Georgie avenue, S. E. Many friends who have cherished his friendship for many years visited "Uncle Jimmy," as he is affectionately known, and congratulated him upon passing his ninetieth milestone. "Uncle Jimmy," because of failing eyesight, retired from work some months ago, but his health otherwise has been generally good. He has visconnection with oil leases. Should a decision be handed down before the end of the present term on June 3 affirming the lower court, Sinclair would be required to serve an additional jail sentence of six months.

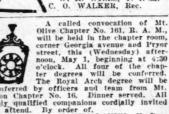

# has been generally good. He has visited the courthouse several times since IN OIL KING'S CASE

Washington, April 30.—(P)—The supreme court is ready to take its final step toward commitment of Harry F. Sinclair to jail to serve a three-month sentence for refusal to answer questions by the senate oil

The court's mandate was drawn to posed by the District of Columbia su preme court. The mandate is signed by Charles Elmore Cropley, the clerk of the highest tribunal, and is issued ver the name of Chief Justice Taft It reviews the proceedings by which the case reached the court and "com-mands" the District of Columbia supreme court to proceed to put the jail sentence into effect.

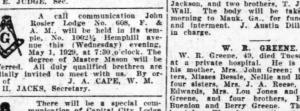

The mandate probably will reach the clerk of the District of Columbia supreme court by Saturday, and early next week he may submit it to a judge
